### CQAAG Standardized Cut Test Protocol

To ensure accuracy, consistency, and compliance with international cashew quality standards while optimizing efficiency, the following minimum cut test requirements shall apply:

#### Arrival Inspection

Quantities ≤ 10 Tons: Perform one (1) mandatory cut test.

Quantities > 10 Tons: Perform two (2) mandatory cut tests and calculate the average.

#### Dispatch Inspection

Perform two (2) mandatory cut tests and calculate the average.

#### Export

Perform three (3) mandatory cut tests and calculate the average per BL
